Fat-client applications VS web-client applications

This paper describes the advantages of fat-client applications over web-client applications.

1 Introduction

2 Application Architecture

3 Application Maintenance

4 Defect Analysis

5 User Experience

6 User Interface

7 Conclusion

Table 1 pictures the ‘simplicity’ and ‘effectiveness’ of YEROTH-ERP-3.0, compared to ERP software-systems “Sage Gescom i7”, and “SAP Business One”.

	Fat-client application	Web-client application
complete training	5 days	3 months
difficulty in navigation	easy	very difficult
internet connection	mandatory	mandatory

Table 1: Comparison between YEROTH-ERP-3.0 and 2 other full featured ERP software-systems
